

TECHNICAL SPECIFICATIONS

Dimensions : Width 970 mm, Height 2100 mm,
Tunnel Length 2000 mm

Weight : Empty Weight of the Device 240 kg

Mechanical Material : Thermic Aluminum
(does not adhere to the surface because
it is smooth)

Glass : Solid Plexi (absolutely unbreakable)

Supply Voltage : 220 Vac / 50-60 Hz.

Coil Voltage : 24 Vdc.

Tank Capacity : 100 liters (warns on the digital
display when the drug is low and over.)

Number of Tank Sprayers : 4,000-6,000 people

Optimum Tunnel Pass Time : 3-4 seconds
(Adjustable between 2-15 seconds.)
