ROLLER BARIYER

SAFETY ROLLING BARRIER

ROLLER SAFETY BARRIER,
ROAD ROLLER BARRIER

High Safety, Maximum Durability

At MADDORS, we bring the latest road safety technologies to our clients. Our roller barrier system is designed to provide high-level protection, especially on highways, intersections, curved roads, bridge entrances and median splits.

Advantages:

- High impact absorption, Distributing crash energy through rotating, berres preventing vehicle rollover or rebound.
 - Long-lasting material: Resistant to UV rays, weather conditions, and heavy impacts.
 - Bright yellow-orange colors and reflective strips ensure visibility day and night
 - Quick and easy installation, maintenance, and replacement
- Eco-friendly. Made from recyclable materials

High Safety, Maximum Durability
